Interchangeable Clutch Sets

Platinum Driveline offers two different clutch sets for the below listed applications to appeal to the preferred design style of all customers. Either design can replace the other, but only if all three components are replaced together. Not replacing the components with the matching design could result in clutch release or fitment issues.

PDL Kit 17-065

PDL Kit 17-064

Affected Applications:

Year	Make	Model	Engine
2005-06	Volkswagen	Jetta	4 cyl 1.9L 1896cc BRM Engine

****Always replace the dual-mass flywheel if it shows signs of heat damage; it cannot be resurfaced.***

For kits options that include the flywheel, please see below;

For 17-065 including flywheel order 17-070

For 17-064 including flywheel order 17-066
