

Jeep Technical Bulletin

Jeep models from 1980-1986 that use an external slave cylinder need to be inspected for wear, misalignment, etc. at the end of the slave cylinder. Be sure to check the pivot, seal, and washer.

Affected Applications

Year	Model	Engine
1984-86	Cherokee, Grand Cherokee	4 and 6 Cylinder Engines
1980-86	CJ, DJ, Wrangler	4, 6 and 8 Cylinder Engines
1980-86	Comanche, Grand Wagoneer, Wagoneer	4, 6 and 8 Cylinder Engines
1980-86	J-Series, Jeepster, Gladiator, Scrambler	4 and 8 Cylinder Engines

SC0101

SC0102

If any of these parts are worn, broken, or missing, then the slave cylinder travel will be affected resulting in release problems.
