

M02 Quality Policy

Platinum Driveline has established this quality policy to align with the purpose and context of our organization. This policy reflects who we are and how we operate. It guides the setting and reviewing of objectives and demonstrates commitment to meeting customer and regulatory requirements while continually improving our management system.

Customer focus: As an organization, we are committed to understanding our current and future customers' needs, meeting their requirements and striving to exceed their expectations.

Leadership: Our Top Management are committed to creating and maintaining a working environment in which all employees and representatives become fully involved in achieving our objectives.

Engagement of people: As an organization, we recognize that people are the essence of any good business and that their full involvement enables their abilities to be used to achieve our goals.

Process approach: As an organization, we understand that a desired result is achieved more efficiently when activities and related resources are managed as a process or series of interconnected processes.

Improvement: We have committed to achieving continual improvement across all aspects of our quality management system; it is one of our main annual objectives.

We adopt and strive to meet quality objectives each year which align with this policy, and they can be found in document R03 Quality Objectives.

This policy is available and communicated to all interested parties, posted prominently in our workspaces, and published to the wider community via our website.
